

Varied Fluency

Step 2: Describing Turns

National Curriculum Objectives:

Mathematics Year 2: (2P2) [Use mathematical vocabulary to describe position, direction and movement, including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns \(clockwise and anti-clockwise\)](#)

Mathematics Year 2: (2P1) [Order and arrange combinations of mathematical objects in patterns and sequences](#)

Differentiation:

Developing Questions to support drawing shapes after a turn and identifying quarter and half turns, either clockwise or anti-clockwise.

Expected Questions to support describing turns and identifying quarter, half, three quarter and whole turns, either clockwise or anti-clockwise.

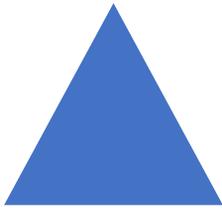

Greater Depth Questions to support drawing shapes after turns and describing and identifying quarter, half, three quarter and whole turns, both clockwise and anti-clockwise in multi-step problems.
