

**SUN SAFE SCHOOLS  
WORKSHEET 2b: WHAT'S WRONG?**

NAME:

CLASS:

George the Sun Safe Superstar is at the Park. It is a hot sunny day and he sees that his friend Sam isn't protected from the burning sun. George is worried that the sun's invisible rays will burn Sam's skin and make him sore. Can you help George tell Sam what he is doing wrong?

To help George you need to remember your five S's of Sun Safety and draw them on or around Sam to protect him. To get you started, why not draw a T-shirt on Sam, this will cover his shoulders and stop them from burning and becoming sore. Once you have drawn all 5 items, colour them in.

**Extension – Key Stage 2**

Write down each item that you have drawn in the spaces provided with an explanation of how it is helping Sam not to burn.
