

Applying Tone to a Line Drawing

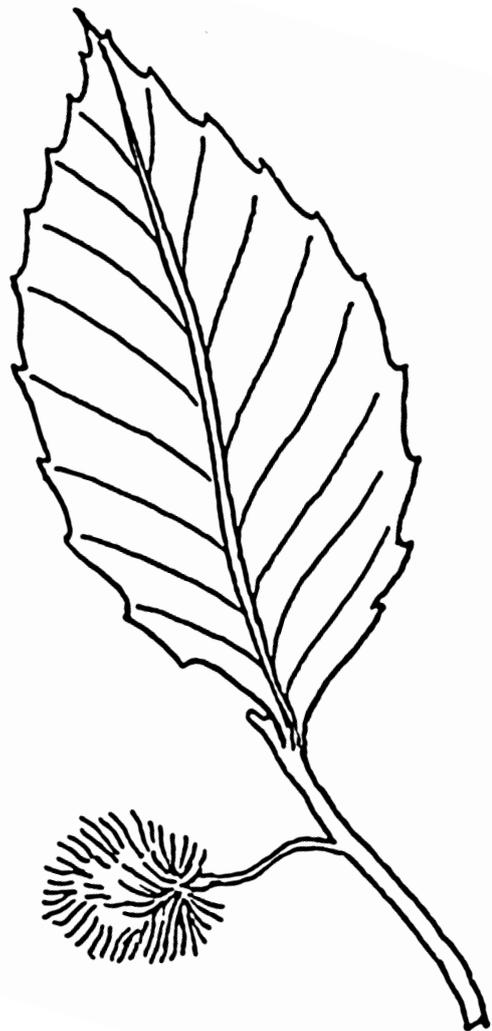

Your task today is to apply light, medium and dark tones to a variety of leaves. Before you begin, warm up by showing off your blending skills in the boxes below.

Now try shading the leaf below, using dark tones at the centre and blending to lighter tones at the edges. Remember you can use the tip of your finger or a blending tool to smooth your tones together

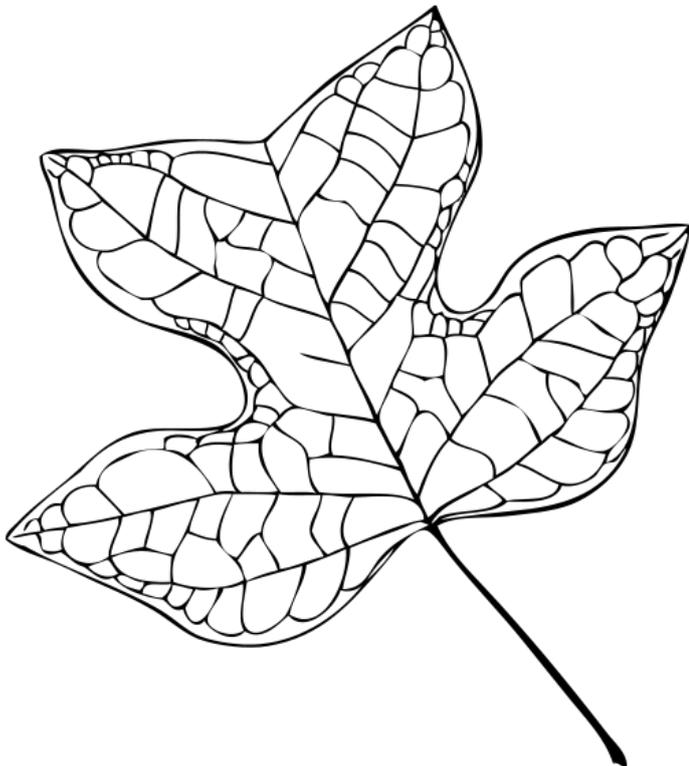

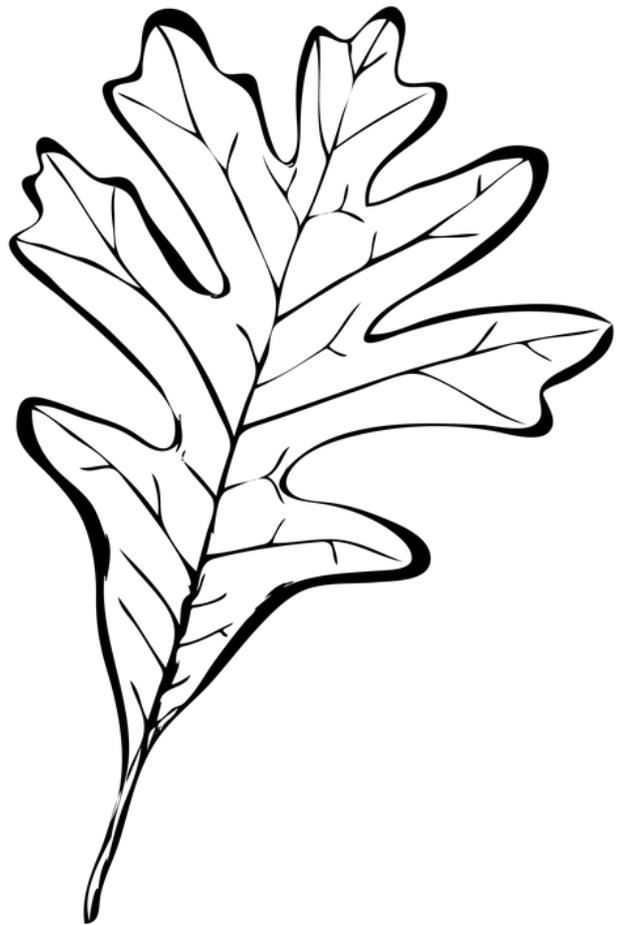

Example of a line drawing of a leaf using tone

Task Two

Extension Task

Add colour to the leaves below using red and orange pencil crayon. Blend the two colours together.

What have you learnt today?

List three things you have learnt this lesson:

1. _____

2. _____

3. _____
